BORN IN THE HIMALAYAS

The Nepal Distilleries, nestled in the lap of Himalayas, is the first ever distillery of Nepal established in 1959.

The ISO 9001: 2015 certified distillery, using the fresh Himalayan Spring water & the cool temperature has specialized in producing quality rum, giving an experience of the history of humble traditions, expert connoisseurship & hand-crafted flavours that speak to you of the ice-capped mountains that it comes from.

A photograph of an ancient stone temple interior. The scene is dominated by a long, perspective view of a colonnade of dark, fluted stone pillars. The pillars are supported by a heavy, intricately carved stone structure. The floor is made of large, light-colored stone tiles. In the background, more of the temple's architecture is visible, including a large, ornate archway. The lighting is dramatic, with warm, golden light coming from the background, creating a sense of depth and highlighting the textures of the stone. The overall atmosphere is one of historical grandeur and architectural beauty.

OUR VISION

Crafting quality beverages, creating happiness globally.

THE SYMBOL OF BRAVERY

Khukuri is a curved, traditional Nepalese knife, that has been an integral part of Nepalese culture & identity.

It is a weapon carried by the "Gurkhas", who are known globally for their bravery, loyalty & strength.

QUALITY RUM SINCE 1959

Nepal has a long tradition of homemade alcoholic beverages. In 1959, The Nepal Distilleries produced and introduced to the world its first batch of Khukri XXX Rum, a national spirit that captured the essence of the Nepali people's spirit and created a shared experience for everyone to enjoy.

Khukri Rum is crafted using fresh Himalayan Spring water and premium handcrafted blends that are produced using proprietary processes, to infuse them with taste & aroma that is bold and intense.

THE CRAFT

The blenders have been working for over three generations, passing on the specialized techniques that help produce quality rum, giving an experience of the history of humble traditions, expert connoisseurship and hand-crafted flavours that speak to you of the ice-capped mountains that it comes from.

Unlike other rums, Khukri rests in casks built out of exotic Shorea Robusta trunk from the green Himalayan Forest.

Once the blend ages and mixes with traces that have been in the barrel for over 6 decades, Khukri is bottled and ready to be sipped.

If one must taste the Himalayas, Khukri becomes a natural choice.
